Hi Julie,

I'm just checking in on the status of the funding for our temp person. The last we spoke about this I believe the funding was until June...does this mean through to the end of June? Kathleen was just inquiring as this would effect any plans she might make if it was only until early June.

Do you have any sense as to what might happen July 1? She is such a topnotch and valuable, reliable employee with great computer skills. I would hate to lose her and she has indicated she would like to stay as long as possible.

Thanks,
Betsy
